

# PEANUTS ON PONIES AT IRONSTONE FARM

Share in the joy of discovering horses with your child

Join us at Ironstone Farm for an eight-week program focused on developmentally appropriate activities for three to five year olds. The program meets once per week for a one hour session.

Moms, dads, or guardians work with their child in fun games that teach about horses, develop riding skills, and aid in physical and cognitive development. The parent or guardian is an active participant in the lessons, leading the child's pony and helping with the lesson activities.

Cost is \$280 for the eight-week program and will be pro-rated for late registrations.
